Summary

Passionate and detail-oriented Web Developer with proficiency in modern web technologies including ReactJS, JavaScript, HTML, CSS, TailwindCSS, and Firebase. Demonstrated ability to develop responsive and user-friendly web applications. Committed to continuous learning and improving coding skills. Eager to contribute as a valuable team member in a dynamic and growth-oriented environment. Fresh graduate with a solid understanding of web development principles and a portfolio of completed projects showcasing technical expertise and creativity.

Projects

SaveData - Web Application

<https://vamsi-todo-app.vercel.app>

- **Technologies Used:** ReactJS, CSS, Firebase
- **Project Description:**
 - Developed a web application named SaveData to save text data with titles and descriptions.
 - Implemented user authentication and data storage using Firebase.
 - Automatically detects and stores the date and time of each entry.
 - Allows users to securely log in and access their saved data anytime.
 - Ensured a responsive and intuitive user interface with ReactJS and CSS.
- **Key Features:**
 - User Authentication: Users can sign up, log in, and log out securely through Firebase authentication.
 - Data Storage: Users can save, retrieve, and manage their text data, including titles and descriptions.
 - Automatic Date Detection: Automatically captures and displays the date and time when data is saved.
 - Responsive Design: The interface is optimized for both desktop and mobile devices.
 - Clean and Modern UI: Utilized CSS for styling to create an attractive and user-friendly layout.
